

HAND PALLET TRUCK

MODEL ALTRA LIFT

The Altra Lift hand pallet truck is a budget-conscious product ideal for use on-the-go. The Altra lift has adjustable tubular push rods that provide reliable performance and quick easy maintenance. It is designed with self-lubricating bushing at all pivot points that help improve efficiency and minimize wear.

This product is designed for light-duty loading docks, on delivery trucks, or moving product from backroom storage to retail shelving.

HAND PALLET TRUCK

MODEL ALTRA LIFT

PRODUCTIVITY

Forks have solid nylon fork tip entry rollers to ease transition over the bottom pallet boards.

DURABILITY

The adjustable tubular push rods and self-lubricating bushing at all pivot points help improve warehouse efficiency and minimize wear.

ERGONOMICS

The teardrop handle with 3-way position lever provides comfortable and precise load control for the operator. The handle return spring automatically restores the handle to its vertical position.

FLEXIBILITY

Toyota knows that every operation runs differently. That's why the Altra Lift is designed to adapt to a wide range of warehouse operations, available in a variety of configuration.
